

# Industrial Fasteners

## Rope End Clips

Rope end clips are an easy way preventing ropes from fraying at the ends. Rope end clips also provide a solid anchor point on a rope. Easy and quick to attach.

Part No.	Rope Size		Finish	Chuck	Die
	No.	In.			
550-2-7.305	6	19.05	0.75	Steel	1241
550-2-8.305	8	25.40	1.0	Steel	1243

## Rope Splice Clips

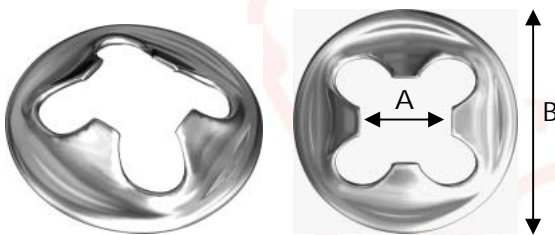

Rope splice clips provide a simple method of splicing rope ends together. The splice clip provides a strong and effective method of joining ropes or creating loops.

Part No.	Rope Size		Finish	Chuck	Die
	No.	In.			
550-21-1.305	6	19.05	0.75	Steel	1261
550-21-2.305	8	25.40	1.0	Steel	1263
550-21-3.305	10	31.75	1.25	Steel	1265
550-21-4.800	6	19.05	0.75	Brass	1261
550-21-5.800	8	25.40	1.0	Brass	1263

## Ratchet Plates - Plain

Ratchet plates are a simple way to fix components onto shafts, tubes and studs or shafts into housings. Ideal for situations where the component needs to rotate on the shaft i.e. gear cogs.

Part No.	A Rod Size		B Outside Dia.	
	Mm	In.	Mm	In.
49848-2	4.75	3/16	14.3	9/16
49712-2	9.5	3/8	20.	13/16

### Finish

Plain ratchet plates are supplied in zinc plated finish for corrosion resistance.

## Ratchet Plates - Capped

Capped ratchet plates are used when a more attractive finish or safety is required. Ideal for holding wheels onto toys etc.

Part No.	A Rod Size		B Outside Dia.		C Thickness	
	Mm	In.	Mm	In.	Mm	In.
49705	6.35	1/4	15.9	5/8	7.5	5/16
49712	9.5	3/8	22.2	7/8	13.9	9/16
49714	12.7	1/2	22.2	7/8	13.9	9/16

### Finish

Capped ratchet plates are supplied in nickel finish.
